

Welcome to Analytas - Your Trusted AI Advisory Partner

Who We Are

Analytas is an AI strategy and deployment firm specializing in helping organizations leverage autonomous agents and AI tools responsibly and effectively. We work with enterprises, startups, and government institutions to assess readiness, define AI roadmaps, and execute agent-based solutions.

What We Do

We specialize in:

- AI Agent Strategy Consulting
- Use Case Discovery & ROI Evaluation
- Multi-Agent Workflow Design
- Deployment of Autonomous Agents
- Safety, Ethics & Interpretability Audits
- Infrastructure Selection & Model Integration (OpenAI, Claude, Mistral, open-source models)

Industries Served

- Healthcare
- Financial Services
- Retail & Logistics
- Defense and Public Sector
- Education and Research Labs

How We Work

Our approach is designed for clarity and results:

1. Discovery Call - We explore your current tech stack, goals, and constraints.
2. Readiness Assessment - Using our proprietary Agent Fit Score(TM), we determine whether your team and infrastructure are ready.
3. Pilot Deployment - We co-design one or more agents tailored to your workflow.
4. Scale & Support - Once validated, we assist in scaling across business units, with continuous learning loops built in.

Our Tech & Values

- Model Agnostic (OpenAI, HuggingFace, Cohere, etc.)
- Secure Infrastructure (SOC2 compliant partners)
- No overpromising - our goal is reliable, safe deployment
- Continuous improvement based on user feedback

Team

Founded by AI researchers and engineers from MIT, Cambridge, and IITs, our team balances academic rigor with practical deployment experience.
